The Surgery Center

at Akron General Health & Wellness

Conveniently located in western Summit County, The Surgery Center at Akron General Health & Wellness offers superior personalized attention and quality outpatient surgical care. Our experienced doctors, nurses and staff specialize in providing a top quality outpatient experience.

The Surgery Center offers patients the expert medical and surgical care they deserve coupled with personal attention and after-care education. Patients recover in a quiet and relaxed atmosphere before returning home the very same day. Controlling post-operative pain and discomfort is also a key focus, with the availability of state-of-the-art techniques including pain blocks offered by on-site anesthesiologists.

The location is easy to get to, just west of the Route 18 and I-77 intersection. Parking is free and close.

Minimally Invasive Surgery

Advanced technology and less invasive surgical techniques are helping patients heal faster and feel better faster. In fact, many surgical procedures can be performed today using standard endoscopic techniques that use smaller incisions and tiny cameras to guide instruments in the body. Most surgeons practicing at the Surgery Center at Akron General Health & Wellness offer minimally invasive options, when appropriate, for procedures including appendix removal, gallbladder surgery, orthopaedic surgery, and gynecologic and urologic procedures.

Our comprehensive range of outpatient surgical procedures includes:

- Ear, Nose and Throat Surgery
- Endoscopy
- General Surgery
- Gynecological Surgery
- Oral Surgery
- Orthopaedic Surgery
- Pain Management
- Plastic, Cosmetic & Reconstructive Surgery
- Podiatric Surgery
- Urologic Surgery

The Surgery Center features:

- 4 private operating rooms
- 2 state-of-the-art endoscopy suites
- Full service lab for pre-operative testing
- Diagnostic (Radiology) testing in adjacent suite
- Post-operative pain management
- Flexible scheduling
- On-site Pharmacy
